

**Low Power FM (LPFM) Expansion
MB Docket No. 04-233**

I just recently learned that there is consideration by your commission to expand the LPFM service in the Oklahoma area, which could take priority over current FM translator services. I understand this could affect the ability for us to receive the K-LOVE Radio station broadcasted on 88.9, 89.9 and 88.5.

K-LOVE serves our community with a very positive and uplifting way. There are encouraging programs, music and comments that I and my family plus many friends and neighbors benefit from daily.

In this day and time when so much negative, vile and actually pornography is heard and seen across the radio waves and TV stations, I would like to appeal to you to not force off the air or minimize in any way the broadcast of the K-LOVE stations.

I believe the service provided by K-LOVE in our area is very encouraging and helpful to our community. There are prayer lines where those who need help can call for counseling or prayer. There is always good messages provided. We also receive news broadcasts on current events.

I would like to request you not remove or reduce any of the K-LOVE stations in this area.

Thank you,

**Mikie Hooper
